

I am currently benefiting from Indiana's DO NOT CALL List. It has given me more time to be with my family uninterrupted. We used to get at least 6 calls an evening, then they even started on Sundays! Now we get only 2-3 per month. I think it's important for the FCC to respect the right of states to offer this to their citizens - and also for citizens to have the right to peace in their own homes without the invasion of an unsolicited phone call. I pay for the phone and the phone line! It is important to me that the FCC doesn't diminish the positive impact Indiana's law has had on the quality of my family's life.
